DETAILED ACTION

Claims 1-33 have been canceled by applicant's amendment dated, 12/5/03.

Applicant's amendment dated, 12/5/03 has overcome the objections and 112 rejections listed in the last office action.

Allowable Subject Matter

Claims 34-54 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance: With respect to independent claim 34, the prior art of record does not teach nor disclose in each of the quadrupole electrostatic lenses the poles being angularly shifted with respect to the poles of a quadrupole electrostatic lens subsequent in the direction of propagation by a selected angle in order to provide the angular gradient of the electrostatic field between adjacent quadrupole lenses of the plurality and thus to cause the ions to move along helical trajectories. Since this aspect is not taught nor disclosed, independent claim 34, and dependent claims 35-54 which also incorporate this aspect are deemed allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
